Notes to the Statement of Affairs

- 1 In accordance with the Company's accounts for the year ended 30 April 2014, the Company's goodwill had a net book value of £42,439. An offer of £53,000 has been received for the Company's business and assets, of which £22,000 relates to Goodwill. Further details of the proposed sale are provided below.
- 2 The Company's debtor ledger is subject to a debt factoring agreement with RBS Invoice Finance Limited (RBSIF). The duly appointed liquidator is to liaise with RBSIF to establish the position in respect of the ledger and strategy for collecting in the remaining balances.
- 3 A rent deposit deed in the sum of £4,899.75 has been lodged in respect of the Company's leasehold premises. It is understood that the outstanding liabilities to the landlord are in excess of the deposit value and so no recovery is expected in respect of this balance.
- 4 The Company owns a motor vehicle subject to a Hire Purchase agreement. It is believed that there may be some equity in the agreement after settlement. The duly appointed liquidator is to liaise with the Hire Purchase company in due course.
- 5 In accordance with the Company's 2014 accounts, the Company's chattel assets had a net book value of £12,459. In accordance with Kumar and Company's valuation, these assets had an in-situ valuation of £28,000, and I can confirm that an offer of £28,000 has been received for these assets as part of the wider business sale noted above. Further details of the sale are disclosed below.
- 6 Kumar and Company have advised that the Company's stock has an estimated value of £3,000 after taking into account potential reservation of title claims. An offer of £3,000 has been received and is incorporated within the sale of the business disclosed below.
- 7 Pursuant to Section 176A of The Insolvency Act 1986 (as amended), a Prescribed Part of the Company's net assets should be set aside for the benefit of unsecured creditors. This reduces the funds that would otherwise be made available to any secured creditor under Floating Charges created after 15 September 2003.

It is anticipated that the qualifying floating charge holders will be fully settled from fixed charge realisations and so the prescribed part is not expected to be applicable in this matter.

- 8 The values for trade & expense creditors are taken from the company's books and records. Any variation from the creditors' records may be investigated by the duly appointed Liquidator.
- 9 The inclusion of a claim does not constitute admission of the debt. All claims are subject to formal adjudication.
- 10 The position regarding liabilities to HMRC will need to be established by the duly appointed liquidator following the submission of final returns.
