**4 NOTES TO THE ESTIMATED STATEMENT OF AFFAIRS AS AT
14th DECEMBER 2009**

Assets

Assets Specifically Pledged.

Vehicles

The last accounts for the company are for the year ended 31 July 2007. Those accounts detailed vehicles owned by the company including those purchased with the assistance of HP between January 2006 and December 2006. Unfortunately the company was unable to pay its accountants who have served a statutory demand in regards to their outstanding debt. The directors have not been able to obtain full sets of accounts for the period 25 July 2005 to 31 July 2006 and only have available abbreviated accounts for this period. Furthermore the directors have not been able to liaise with their accountant regarding the breakdown of the vehicles comprised in the accounts. The nominated liquidator has also been unable to contact the accountants in this regard. As vehicles have been disposed of over the period of time (see "history" section) it has proved impossible to attribute the total book value in the 2007 accounts to the remaining vehicles. Accordingly, it was considered the most appropriate course of action to use the cost value of the remaining vehicles in the company's possession as the book value in the statement of affairs.

4.1 Ford Transit Mini Bus

The company owns a 2005 Ford Transit Van with a cost value in January 2006 of £14,650. It is estimated by Chris Hardman of Charles Taylors Auctioneers that the realisable value of this vehicle is £2,225.

The vehicle is subject to a HP agreement with Ford Credit and it is estimated that more than £2,225 is owed to them in relation to the same. It is estimated on the basis of a letter received from Ford Credit in September 2009 that they are owed £1,500 in relation to this vehicle. It is not clear whether they have consolidated this debt with the shortfall in relation to a vehicle previously held on finance with them. It is however the view of Charles Taylor that there is no equity in this vehicle. For the purposes of the statement of Affairs outstanding finance of £2,225 has been entered and the total unsecured balance due to Ford credit has been entered in full in relation to the shortfall in respect of the other vehicle.

4.2 Mercedes Coach

The company owns a 1996 Mercedes 29 seat Mini coach with a cost value of £19,000 in September 2006. It is estimated by Chris Hardman of Charles Taylors Auctioneers that the realisable value of this vehicle is £2,500.

The vehicle is subject to a leasing agreement with Conister Trust PLC and it is estimated that £6,240 is owed to them in relation to the same. It is therefore considered that there is no equity available in the vehicle.

4.3 M.A.N Van and Trailer

The company owns a 1999 Drawbar Box Van coupled with a Box Van Trailer. It is estimated by Chris Hardman of Charles Taylors Auctioneers that the realisable value of this vehicle is £2,175.

These vehicles were purchased through IBJ Leasing (UK) Limited. The company has satisfied the Primary Lease period in December 2008 and has the option of paying an annual secondary Period Rental of £590.87 including VAT or alternatively introducing a trade purchaser to IBJ Leasing who would in return pay across 95% of the sale value to the company.

The annual cost of £590.87 would then be charged to the purchaser by IBJ Leasing. Due to this fact finding a potential purchaser would be extremely difficult and Chris Hardman of Charles Taylor has estimated that the vehicle has no realisable value.

Assets not Specifically Pledged.

4.4 Tools and Equipment

The directors have advised the company owns tools and equipment which include a Vehicle Lift which they estimate should have a realisable value of £1,000. The directors have been unable to provide a full breakdown of the tools and equipment but it appears the company's landlord will be interested in acquiring the same.

4.5 Debtor

In the accounts as at 31 July 2007 the directors are shown to have owed the company £25,673. The directors have advised this loan has been paid back to the company since 31 July 2007.

Creditors

The director is not aware of any potential preferential claims.

4.6 HM Revenue & Customs

The directors have estimated that a total of £997.23 is owed to the Revenue & Customs in regards to PAYE and NIC, a further £6,868.24 is owed to them in relation to Corporation Tax. The directors have been unable to quantify the amount owed to Revenue & Customs in relation to VAT.

4.7 Trade and Expense Creditors

The amounts stated in the statement of affairs have been supplied by the directors who believe that these creditors have outstanding monies owed to them. The figure detailed in the estimated Statement of Affairs is subject to the agreement of creditors' claims. Creditors' amounts include VAT where applicable.

4.8 General

The estimated Statement of Affairs is subject to the Liquidator's costs and disbursements and the costs of the agents and solicitors employed by the Liquidator.

Unless otherwise stated the valuations in this report have been provided on a sight unseen basis by Christopher Hardman of Charles Taylor auctioneers who is qualified by experience.

There are no known retention of title claims.
